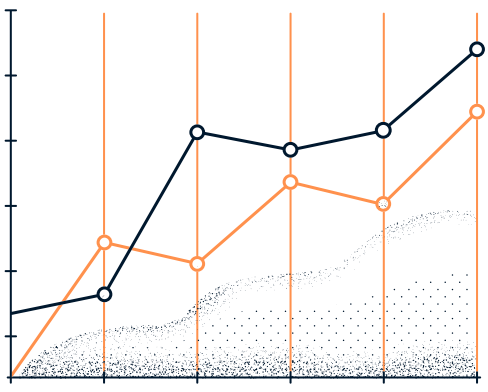
5 KEY STEPS

To start investing as beginners

1. Set Clear Financial Goals

Decide why you're investing—wealth building, passive income, early retirement, etc. Clear goals = better decisions



“The best time to plant a tree was 20 years ago and the next best time is now!“

2. Learn Basics First

Understand concepts like stocks, mutual funds, risk, return, and compounding. Don’t jump in blindly

3. Start with a Small Amount

You don’t need big money. Start small, stay consistent, and increase gradually

4. Choose the Right Platform

Use trusted apps like Zerodha Kite or Groww to buy stocks or mutual funds easily

5. Invest Consistently

Don’t try to time the market. Invest regularly (monthly/weekly) and let compounding do its magic
